SUBJECT: Advertisement of Projects for Bidding

As a supplement to our earlier instructions to advertise projects even before actual receipt of their Allotment Advice(s) to gain headway in their implementation, it is hereby directed that same be strictly followed even as the quantities of work to be done have not yet been determined provided that the advertisement indicates the type of work to be done. The purpose of the published advertisement is primarily to disseminate as widely as possible the information that a project is up for bidding and therefore allow all interested contractors to consider their participation therein and thus ensure the competitiveness of the bidding.

For compliance.
