

REPUBLIC OF THE PHILIPPINES  
MINISTRY OF PUBLIC WORKS AND HIGHWAYS  
OFFICE OF THE MINISTER  
MANILA

17 May 1983

MINISTRY ORDER)  
NO. **38**  
Series of 1983)

SUBJECT: Exemption of projects costing not more than P500,000 from the preparation of PERT/CPM Diagram

In order to expedite the implementation of infrastructure projects of this Ministry, it is hereby made a policy that for projects costing not more than P500,000.00, the preparation and submittal of PERT/CPM Diagram, as required under Presidential Order dated June 19, 1968, may be dispensed with and instead a GANTT Chart (Bar Type) shall be used for the following reasons:

1. For small projects costing P500,000.00 and below, the Bar Chart can be prepared faster and can be easily understood, as the works involved are not complicated to require the use of PERT/CPM Network Diagram.
2. For projects which involve only a few items of work, GANTT Chart is more practical to use since planning, scheduling and control in construction operation can be interpreted in a very simplified method.

This order shall take effect immediately.

  
ABER P. CANLAS  
Acting Minister
