MINISTRY ORDER)
NO.)
SERIES OF 1982)

76

SUBJECT: Reassignment of Functions
pertaining to Traffic Safety
and Control Devices to the
Bureau of Maintenance.

The identification of road and bridge sections requiring traffic signs, guard rails, pavement markings, and other traffic safety and control devices, as well as the supervision of the installation thereof, is hereby reassigned from the Planning Service to the Bureau of Maintenance.

The Bureau of Maintenance, however, may seek assistance and advice from the Planning Service on matters involving the planning of these traffic devices.

This Order takes effect immediately.
