JUSTIFICATION:

Modification is requested due to increase in the physical target by 1,976 In.m. (from 925.178 In to 2,901.178 In.m.) for CW2 as reflected in the FY 2017 GAA based on the approved plans and Program of Work. The road runs on a very flat terrain, hence, drainage at both sides of the road is necessary in conveying the water up to the outfall.

Attached are the required documents, such as Evaluation Form (2017, version 2.1), BP 202, Certificate of Availability of Funds (CAF), Approved Program of Work and Geotagged photographs.

In view of the above, the request for Modification of the Project is respectfully recommended for consideration and approval.
