- Change in station limits is requested in view of the actual design of the project resulting to the increase in physical target and consequently decrease in unit cost to prioritize road section that needs drainage structure in order to address the flooding in the area.
- Based on the plan and actual site condition, the project involves the construction of drainage structure (reinforced concrete box culvert) including slope protection works and other essential items of work necessary in the project implementation, in which a unit cost of P 28,052,271.31 per lineal meter was arrived at with the corresponding physical target of 1,607 lineal meters, copy attached is Certificate of Reasonableness of Cost Estimate for your reference and guidance.
- Attached are the following supporting documents: Form for Evaluation of Modification Request (2023, V1-0); BP 202; Certificate of Availability of Funds; Approved Program of Works; Plan; Geotagged Photos; Certificate of Reasonableness of Cost Estimate; and Location Map.

Based on our evaluation, the submitted request for modification of the said project is found in order. Hence, the said request is hereby recommended for the Undersecretary's consideration and approval.
