Justification:

 - ✓ It also involves Miscellaneous structures of Reflectorized Thermoplastic pavement markings (White) of which 0.81% (₱ 282,134.24) of the total project cost.
 - ✓ Also, this project is located in an island where material cost is extremely high due to double/triple handling cost. Aggregate subbase and surface course are being taken from Cotabato city since the source in Municipality of Maimbung in the province of Sulu is limited.
- The derived unit cost is based on the approved Program of Works (POW), and Detailed Unit Price Analysis (DUPA).
