Measure Profile

MEASURE
J16

What is the measure?

Percentage of Regional Offices (ROs) and District Engineering Offices (DEOs) with at least Very Satisfactory (VS) rating in the annual Design Audit

What strategic objective is the measure aligned?

Adhere to the latest design guidelines, criteria, and standards

What is the rationale behind the measure?

This core process will ensure the compliance of Implementing Offices with the latest edition of the DPWH Design Guidelines, Criteria and Standards (DGCS) and other existing applicable laws, codes, and Department Orders/Issuances. This will be accomplished through the evaluation of their detailed architectural and engineering design works and processes involved in the delivery of functional, economical, safe and resilient infrastructure projects.

How is the measure calculated? Clarify the terms in the formula

Percentage = $(P_d/P_t) \times 100\%$

P_d = Number of Regional Offices compliant to design standards

P_t = Total Number Regional Offices Assessed

How often is the measure updated/calculated? Indicate policy/law that is applicable.

Annually; Latest Department Order on the Guidelines and Criteria for the Design Audit of DPWH Regional and District Engineering Offices

What is the unit?

Percent (%)

What data is required in calculating the measure? Where/how will it be acquired?

Number of ROs and DEOs compliant to design standards and Total Number of ROs and DEOs assessed, from the annual Design Audit. Accomplishments shall be based from the Comprehensive Audit Report by the Bureau of Design.

Indicate policy/law that is applicable.

Latest Department Order on the Guidelines and Criteria for the Design Audit of DPWH Regional and District Engineering Offices

What is the basis in setting the targets?

Revision of Design Audit Guidelines incorporating the consistency and accuracy of design in addition to the assessment of completeness of plan

Who is accountable for the targets? (target: achieving at least VS)

Region and District Engineering Offices

Who is responsible for tracking and reporting the annual accomplishments?

Bureau of Design

Baseline	TARGET					
	2023	2024	2025	2026	2027	2028
75	80	85	90	95	100	100
