Standard Technical Specifications for ENGINEERING SURVEY EQUIPMENT

Issue Date :	JAN 19 20 <u>2</u> 3
Doc. Code	DPWH-BOD-SID-QMSF-13.c
Revision No.	3
Page No.	1 of 1

Name of Equipment:	Unmanned Aeria	I Vehicle/System	(UAV/UAS/RPA)	Multirotor Camera Drone
--------------------	----------------	------------------	---------------	-------------------------

Description:

A UAV with more than two rotors with fixed-pitch spinning blades that can generate lift and made to ascend, hover, or descend. This type of UAV/drone is used for documentation and project monitoring.

Main Equipment Components	Specification				
Small UAV as defined by CAAP (Less than 7kgs in weight)					
Flight Endurance	20 minutes (min)				
Wind Resistance	30 kph (min)	The state of the s			
Photo Resolution	12 MP (min)				
Video Resolution	Full HD: 1080p @ 60 fps or better				
Storage	Micro SD				
Control Range for Manual Control	1000 m (min)	DPWH-Bureau of Design			
Takeoff and Landing Environmental Protection	Vertical IP 43 or better	Master Copy			
Accessories Manufacturar's Controller		Control Date: 0/ /19/13 Signature:			

- Manufacturer's Controller
- 2 pcs Extra Batteries (min)
- 1 pc USB Flash Drive (32 GB) (min) \
- 1 pc micro SD Card (16GB) (min)
- 1 set Battery Charger ~
- 1 set User Equipment Manual

Other Requirements:

- With One (1) year warranty on factory defects
- Actual demo of equipment prior to award
- Supplier has personnel with RPA Controller Certificate issued by CAAP (Civil Aviation Authority of the Philippines)

Additional Notes:

- 1. Specifications of main equipment must be indicated or reflected in the original brochure, manual or technical papers that can be downloaded or reflected in the website of the manufacturer.
- 2. Accessories shall be noted "complied" on the bidding documents and shall be checked for compliance upon delivery.
- Other Requirements shall be supported by Certificate/s or Documents supporting its compliance.

4. All technical specifications issued prior to the date of this issuance are considered invalid/obsolete

STANDARD TECHNICAL SPECIFICATION FOR ENGINEERING SURVEY EQUIPMENT

Issue Date :	JAN 19 2023	
Doc. Code	DPWH-BOD-SID-QMSF-13.n	
Revision No.	3	
Page No.	1 of 2	

Name of Equipment: LASER RANGEFINDER

Description:

A laser rangefinder is a rangefinder that measures the distance to an object using a laser beam. The most common type of laser rangefinder works on the time of flight principle, which involves sending a laser pulse in a narrow beam towards an object and uring the time it takes for the pulse to be reflected off the target and returned to the sender.

Main Equipment Components	Specification				
Data Communication	Serial via wired RS232 (Standard) or Wireless Bluetooth				
Battery Type	(1) CRV3 or (2) AA OppyM - Suresu of Design				
Eve Safety	FDA Class 1 (CFR 21) Master Copy				
Dust and Water Protection					
Optics	7x Magnification Control Date: 01 [15]23				
Display Type	LCD Signsture:				
Units	Feet, Yards, Meters, and Deg eesteentherized reproduction of this document				
Measurement Range Distance	1,000m (typical) 2,000m (max. to reflective target)				
Inclination Azimuth Accuracy	t90° CONTROL				
Distance	±30cm (high quality target)				
Inclination Azimuth	±0.25° this who: 2 rs. a - up of this cocume is pre-red.				
Measurement Modes	Horizontal Distance; Vertical Distance, Slope Distance and Inclination (or Percent Slope); 3-point Flexible; Height Routine with auto sequencing; and 2-shot Missing Line				
	Routine				

- With complete set of accessories
- One (1) set User Manual

Other Requirements:

- With One (1) year warranty on factory defects
- · With On-Field Training
- Actual demo of equipment prior to award

Additional Notes:

- 1. Specifications of main equipment must be indicated or reflected in the original brochure, manual or technical papers that can be downloaded or reflected in the website of the manufacturer.
- 2. Accessories shall be noted "complied" on the bidding documents and shall be checked for compliance upon delivery.
- 3. Other Requirements shall be supported by Certificate/s or Documents supporting its compliance

All technical specifications issued prior to date of this issuance are considered invalid/obsolete.
