Justification: <ul style="list-style-type: none">The physical target of 4.787 lane km. (as reflected in the GAA) does not coincide with the project station limit as proposed. The correct physical target should have been 2.788 lane km.However, the allotted amount of 59.850 million will yield a unit cost of 20.715 million per lane km. for this is originally proposed project limit, hence the project end limit of one station is originally proposed K0392+000 shall be modified and will have a new station of K0392+434. This proposed modification of project limit will have a new physical target of 3.656 lane km. and a unit cost of 15.797 million per lane km.					

Based on our evaluation, the submitted request for modification of the said project is found in order. Hence, the said request is hereby recommended for the Secretary's consideration and approval.
