Justification:					
<ul style="list-style-type: none">• Change of station limits to provide continuity of the previously widened station and to avoid gap sections.• Decrease in physical target and increase in unit cost since the road section is located at an area prone in land erosion, thus provision of stone masonry to prevent further slope failure.• Addition of ROW Component to resolve Road Right-of-Way issues. The derived physical target and unit cost is based on actual survey and latest BIR Assesed Value in the area.• The derived unit cost and physical target were based on the approved plans, POW, DUPA, CMPD and Certificate of Reasonableness of Cost (copy attached).					

Based on our evaluation, the submitted request for modification of the said project is in order; hence, approval hereof is recommended.
