Justification:					
<ul style="list-style-type: none">The physical target based on GAA is erroneous; the correct physical target should be 225.00 sq.m. with unit cost of ₱ 22,000/sq.m.This project is in an Island where materials cost is extremely high due to triple handling cost. Aggregate subbase and surface courses are being taken from Cotabato City since the source at Municipality of South Ubian, Tawi-Tawi Province is limited.					

Based on our evaluation, the submitted request for project modification is in order, hence approval hereof is recommended.
