<b>Justification:</b> <ul style="list-style-type: none"><li>• In order to maximize fund allocation two (2) sections needing immediate slope protections were included.</li><li>• The decrease in physical target from 3,424.80 sq.m. to 2,855.56 sq.m. is due to the decrease in height taking into consideration the actual field survey.</li></ul>					

- The increase in unit cost from Php 12,876.66/sq.m to Php 15,443.55/sq.m is due to the change in structure and inclusion of minor structures as shoulders and other drainage structures to suit the actual field condition. Furthermore, the cost was computed using the detailed price unit analysis provided by the Department.

Based on our evaluation, the submitted request for modification of the said project is in order. Hence, the said request is hereby recommended for Secretary's consideration and approval.
