CW1- Construction of Flood Mitigation Structure: 900 lineal meters	107.22 / lineal meter	96,500.00	CW1- Construction of Flood Mitigation Structure: 810.33 lineal meters	119.09 / lineal meter	96,500.00
EAO	-	3,500.00	EAO	-	3,500.00
Total:		100,000.00	Total:		100,000.00
Justification: Modification is sought due: 1. Adjustment in station limits resulting to a decrease in physical target from 900 lineal meters to 810.33 lineal meters. 2. The increase in unit cost per lineal meter is due to the voluminous quantities for earthworks (clearing and grubbing, unsuitable excavation, embankment from structure excavation, embankment from borrow, shoring, cribbing and drain excavation) and the design of the project which utilizes concrete slope protection in steel sheet pile foundation. 3. Attached is the Certification on the Reasonableness of Cost dated February 15, 2022.					

Based on our evaluation, the submitted request for modification of the said project is found in order. Hence, the said request is hereby recommended for the Secretary's consideration and approval.
