Justification: <ul style="list-style-type: none">• Modification is sought due to the decrease in physical target by 79.58% brought by the design requirement of flood mitigation structure with concrete revetment with 9 meters steel sheet piles with hexapods.• Decrease in physical target is due to the increase in unit cost of concrete revetment per lineal meter brought by adequate provision of earthworks and bank and slope protection works which includes boulder fill, stone masonry and rubble concrete.• Derived unit cost is based on approved POW and DUPA.					

Based on our evaluation, the submitted request for modification of the said project is in order. Hence, the said request is hereby recommended for Secretary's consideration and approval.
