P 0.446/	stem Links/ New Roads W, Negros Orienta Estimated Cos

This project, based on MYPS registered data, originally calls for a significant extent of properties that needs to be acquired which means that a substantial amount for Road Right-of-Way (RROW) acquisition was already set-aside for payment of properties that will be affected by the road construction, to be taken from the project funds. As it turned-out however, the Local Government Unit (LGU) of Bayawan Municipality had already acquired some of the affected properties which consequently reduced the RROW budget needed. In effect, the limits originally established for the project will have to be extended to maximize the utilization of the available fund which eventually resulted to the increase of the Physical Target and thereby giving more benefit to the end-users concerned.

Based on our evaluation, the submitted request for modification of the said project is in order. Hence, the said request is hereby recommended for Secretary's consideration and approval.

Undersecretary for Operations In Visayas, NCR, and Region IV-B

APPROVED/DISAPPROVED:

MARK A. VILLAR Secretary

3.4 APJ/RRB

Department of Public Works and Highways Office of the Secretary WIN8C02636
