Total:		₱ 84,000,000.00	Total:		₱ 84,000,000.00
Justification:					
<ul style="list-style-type: none">Based on the Approved POW and DUPA the physical target increase from 4.000 lane km to 4.440 lane km, thus, the station limits were adjusted to reflect the correct stationing.Minimal cost of Earthworks for which constitutes 5.65% (₱ 4,554,400.85) only of the total project cost, thus, contributed to the decrease in cost per kilometer of the road project.					

- Also, this project is located in an Island where materials cost is extremely high due to double/triple handling cost. Aggregate subbase and surface courses are being taken from Cotabato City since the source at Municipality of Jolo in the Province of Sulu is limited.

Based on our evaluation, the submitted request for project modification is in order, hence approval hereof is recommended.
