Justification:

- The original amount proposed for the whole segment is 100M. Thus, adjustment to the physical target is necessary. Similarly, adjustment to the station limits is essential for the continuity of projects.
- Also, the target is based on the actual PDE and the latest approved Construction Materials Price Data (CMPD). The project is 200mm thick concrete slope protection with the adoption of 12 meters steel sheet pile (see attached POW and approved Plan)

Attached are the following supporting documents.

 Certificate of Reasonableness of Cost Estimate, Certificate of Availability of Funds, Program of Works, Detailed Unit Price Analysis, Geotagged Photos, GIS Map, and Detailed Engineering Design
