Justification:

- The specified station limits have already been funded and completed. As a result, a transfer to another priority section on downstream of the O'Donnell River is required.
- In this regard, the original amount proposed for the entire segment is 100M. as a result, adjustment to the physical target is required.
- Also, the target is based on the actual PDE and the latest approved Construction Materials Price Data (CMPD). The project is a 200mm thick concrete slope protection with the adoption of 12m steel sheet pile (see attached POW and approved Plan).

Attached are the following supporting documents.

- Certificate of Reasonableness of Cost Estimate, Certificate of Availability of Funds, Program of Works, Detailed Unit Price Analysis, Geotagged Photos, GIS Map, and Detailed Engineering Design

Based on our evaluation, the submitted request for modification of the said project is in order. Hence, the said request is hereby recommended for the Secretary's consideration and approval.
