Physical Target	Allocation (P'000)	Physical Target	Unit Cost (P'000)
CW1- Construction of Road Slope Protection Structure: 2,170.00 square meter (sq.m.)	P9.65/ Square meter	CW1- Construction of Road Slope Protection Structure: 981.78 square meter (sq.m.)	P21.6/ Square meter
EAO	-	EAO	-
Total:	P21,700.00	Total:	P21,700.00
Justification: 1. The decrease in physical target from 2,170.00 to 981.78 square meter due to the following: - The budget allocation is only sufficient to construct 981.78 square meter of road slope protection structure based on construction materials price data and labor rates. - The project requires the use of Active Protection System which does not need massive ground excavation and saves time in the installation process. The use of this slope protection system is in accordance with the D.O. No. 32 s. 2019 which refers to the DPWH amended standard specifications for protection systems for unstable slope. - The preparation of Program of Work and DUPA was made consistent to the provision of D.O. No. 32 s. 2011.			
2. Attached is the Certification of Reasonableness of Unit Cost dated March 18, 2022 to support justification in high unit cost.
