| Justification: Modification is sought due to: <i>Volume of earthwork:</i> 1. <u>Change in station limits to reflect actual flood-prone road sections where the drainage structure will be constructed</u> resulting to the decrease in physical target of CW1 from 937.32 lineal meters to 925.56 lineal meters. 2. The increase in unit cost per lineal meter of CW1 is due to the design of the project utilizing Structured Wall Pipe – High Density Polyethylene Pipe (1.0m diameter). 3. Attached are the following supporting documents: Approved Program of Works (POW), Detailed Engineering Design (DED), Certificate of Availability of Funds, GIS Map, and Certification on the Reasonableness of Cost dated February 3, 2023. | | | | | |
