| <b>Justification:</b><br>Modification is requested due to Change in station limits for CW1 – Preventive Maintenance of Road: Asphalt Overlay from K0917 + (-778) - K0917 + 430 to K0917 + (-778) - K0917 + (-263) and Physical Target from 4.832 lane km to 2.060 lane km for the following reasons:<br>1. Unit costs for CW1 increased due to the revised costs of construction materials, especially on Bituminous Materials based on updated canvassed prices in pursuant to DO 63 s. 2022 Guidelines in Addressing the Effect of the Increasing Prices of Construction Materials and Equipment Rental Rates Utilized for Infrastructure Projects, attached the District Certification for the canvassed Materials stated above.<br>2. Change in station limits and decrease in physical target to prioritize the actual needs of this section which is the inclusion of base corrections (re-blocking) prior to asphalt overlay to prevent further deterioration.<br>Attached are the following supporting documents: POW, DED, CAF, BP 202, Geotagged Photos, GIS Map and Certificate of Reasonableness. |                                       |                            |                                                                                        |                                                              |                                |

Based on our evaluation, the submitted request for modification of the said project is found in order. Hence, the said request is hereby recommended for the Secretary's consideration and approval.
