**Justifications:**

1. Revised station limits since K0909+(-687) - K0909+(-550) **does not exist** in the RBIA database on the said road name under Tacloban City District Engineering Office, thereby changing the original station limits to K0908+060 - K0908+140, K0908+240 - K0908+377.
2. Based on the plan and actual site condition, the project involves construction of slope protection structure using Active Wire Mesh System with Permanent Ground Anchor and Erosion Control Mat (Type 5), in consideration of the revised cost due to price escalation of construction materials, equipment rental and fuel based on the updated canvassed prices; hence, increase in unit cost was determined, arriving at P 24,234.0971 per square meters, and decrease in physical target from 6,438.78 Square Meters to 4,615.05 Square Meters. Attached is the Certificate of Reasonableness of Cost Estimate for reference and guidance.
3. Attached are the following supporting documents: Approved Program of Works (POW), Detailed Engineering Design (DED), Certificate of Availability of Funds (CAF), Geotagged Photos and GIS Map.

Based on our evaluation, the submitted request for modification of the said project is found in order. Hence, the said request is hereby recommended for the Secretary's consideration and approval.
