Q

Justification:

- The decrease in the physical target of CW1-Construction of Concrete Road is due to the inclusion of CW2-Construction of Road Slope Protection and ROW Acquisition. The Slope Protection Structure is necessary due to the presence of NIA irrigational canal along the stretch of the project.
- The decrease in unit cost of CW1- Construction of Concrete Road is due to the minimal subbase and base course item in the project.
- ROW Acquisition of 2,500 square meters costing P2,500,000.00 is also incorporated in the proposed project to compensate affected property owners.

Attached are the following supporting documents: Annexure A to Modification Request Form, GIS Map of the Proposed Project Work Location, Certificate of Availability of Funds, BP 202, Certificate of Reasonableness of Estimate, Certification of "No Overlapping" and "Not Within Warranty Period", Geotagged Photographs, Approved Program of Works (POW) with Detailed Unit Price Analysis (DUPA), and Approved Detailed Engineering Design (DED).

Based on our evaluation, the submitted request for modification of the said project is in order; hence, approval hereof is recommended.
