Total		50,000,000	Total		50,000,000
Justification:					
<div>Use of Steel Sheet piles</div> <ul style="list-style-type: none">Decrease in physical target due to increase in unit cost in consideration of the market prevailing price of materials like cement, reinforcing steel, aggregates and boulders. Likewise, the availability of materials within the province that meets the quality standards as per DPWH Specifications is insufficient to supply the demand of DPWH projects including private construction industry, thus aggregates and boulders imported by local suppliers from nearby provinces such as Albay and Ormoc is utilized. Attached is the certification from the Provincial Government of Masbate. Moreover, the programmed amount includes construction temporary access road(unpaved) that can be utilized during the construction.The derived unit cost and physical target were based on the approved plans, POW, DUPA, CMPD and Certificate of Cost Reasonableness (copy attached).Change in station limits to coincide the actual length of the revised physical target and prioritize the critical section that needs much intervention.
