Justification:							
<ul style="list-style-type: none"><li>Increase in CW1 physical target from 1 building to 3 buildings. This modification is due to the fact that the Province of Catanduanes is located in a region prone to typhoons. Building multiple low-rise structures is considered safer than constructing a single medium-rise building in such an area. Additionally, the site provides ample space to accommodate the construction of multiple buildings. The construction of multiple low-rise buildings aims to offer a range of essential facilities and living quarters to meet the needs of the constituents. Additionally, it seeks to enhance the working environment for personnel.</li></ul>							
Attached are the following supporting documents:							
<ul style="list-style-type: none"><li>Certificate of Availability of Allotment, Program of Works, Geotagged Photos, GIS Location Map.</li></ul>							

Based on our evaluation, the submitted request for modification of the said project is in order. Hence, the said request is hereby recommended for Undersecretary's consideration and approval.
